Overall, this article is an interesting piece to share, but some sentences need to be adjusted or modified. My recommendations are as follows:

1. Abstract: In addition....., herbal medications are potentially a safe and effective way..... with a low toxicity effect.
2. Abstract: Last sentence: Therefore, the outcomes of preclinical....in this review give some insight towards the potential effects on the bioassay activity of Ganoderma species.
3. Third paragraph: second last sentence: With several species of mushrooms, each and every species has their own characteristics and properties.
4. Fifth paragraph: The latest study has reported the hypoglycemic effect.....
5. Eighth paragraph: Needs some citations of references for these statements or sentences.
6. Ninth paragraph: Some of these methods are discussed here, which are currently used in various research:
7. Eleventh paragraph: Because the pathogens.....the environment and public health were less toxic due to effectiveness.....
8. Twelfth paragraph: Further research might be done.....in order to explore the effectiveness of the extracts in treating...
9. Sixteenth paragraph: The investigation on the bacterial activity of the ethanolic extracts..... (Bacallao-Escudero et al, 2023).
10. Seventeenth paragraph: A study demonstrated that the methanolic extract of..... (El-Dein et al, 2023).
