# RF-PSA/PSMA/TRICOM

National Cancer Institute

## Source

National Cancer Institute. *rF-PSA/PSMA/TRICOM*. NCI Thesaurus. Code C29559.

A synthetic fowlpox viral vaccine containing the tumor-associated antigens prostate specific antigen (PSA), prostate specific membrane antigen (PSMA), and a TRiad of COstimulatory Molecules (B7-1, ICAM-1 and LFA-3; TRICOM). Vaccination with this viral vaccine may enhance antigen presentation and activate cytotoxic T-cells against PSA- or PSMA-expressing tumor cells.
