

Review of: "Empowering Minds: The Evolution of Higher Education in Tamil Nadu towards Innovation and Excellence"

Neeta Baporikar

Potential competing interests: No potential competing interests to declare.

The article is interesting but it appears to be an opinion piece rather than a research based paper. Few suggestions to improvise/strengthen the manuscript quality:

1. Enhanced literature review.
2. Provide clarity in research approach adopted.
3. Benchmarking with other states HE policy.
3. Improve academic argumentation on various issues mentioned.
5. Provide implications of the study.
