# Treat Other HIV-Associated Complications

National Cancer Institute

## Source

National Cancer Institute. *Treat Other HIV-Associated Complications*. NCI Thesaurus. Code C19091.

Improved understanding of the pathogenesis of these disorders can be applied to the development and evaluation of therapies for the treatment and prevention of serious HIV-associated complications, especially wasting syndrome and growth failure, as well as other disorders including hematologic, dermatologic, renal, metabolic, pulmonary, cardiac, endocrinologic, psychiatric, and oral manifestations.
