The paper covers interesting aspects; however, it needs major revisions as mentioned below:

1. Reframe the title.
2. No model has been generated/created in the paper; therefore, it needs revisions accordingly in the text.
3. The most important part of any paper is the literature review, which is missing in the present work. Add latest similar studies for all sections of the paper.
4. Add justification/need for the study in the introduction portion.
5. Please recheck the ranking rating criteria table.
6. Give some points of major findings in the abstract.
7. Add recommendations/proposals based upon the findings of the study.
8. Summarize the findings in a proper way.
