Potential competing interests: No potential competing interests to declare.

1. The Title needs revision to make it concise and clear. please avoid unnecessary articles and conjunctions like "the", "its". it's also better to replace "Determinant" with "associated factors" since your study is a crosssectional study. its better corrected as " Glycemic control and associated factors among Type 2 Diabetic patients in Limbe Regional Hospital, Southwestern Cameroon.
2. its better to make the study a multicenter study to increase the sample size and make it a better study with strong power. Explain how the study size was arrived at
3. please Clearly define all outcomes, exposures, predictors, potential confounders, and effect modifiers. Give diagnostic criteria, if applicable and also put references for each operational definition. what is adherence/non-adherence to diet/eating plan
4. please make sure the USE STANDARD DEFINITION FOR GLYCEMIC CONTROL. WHAT IS INADIQUATE GLYCEMIC CONTROL VS POOR glyceMIC CONTROL. PLEASE USE STANDARD DEFINITION FROM ADA or WHO.
5. please For each variable of interest, give sources of data and details of methods of assessment (measurement). Describe comparability of assessment methods if there is more than one group .
