City of Hope Comprehensive Cancer Center

National Cancer Institute

Source

National Cancer Institute. *City of Hope Comprehensive Cancer Center*. NCI Thesaurus. Code C39355.

The City of Hope Comprehensive Cancer Center is an independent medical and research institution dedicated to developing innovative, disease-fighting strategies in the battle against cancer. It fosters a multidisciplinary, interactive environment where basic, clinical, translational, and prevention and control scientists work closely together. The center received its NCI designation in 1981 and its designation as a comprehensive cancer center in 1998.
