Clivatuzumab

National Cancer Institute

Source

National Cancer Institute. *Clivatuzumab*. NCI Thesaurus. Code C88638.

A humanized monoclonal antibody directed against the pancreatic cancer antigen MUC1, with potential antineoplastic activity. Clivatuzumab binds to tumor cells expressing the MUC1 antigen and prevents MUC1-mediated signaling. MUC1, a mucin antigen, is overexpressed in pancreatic cancer but not in normal, healthy pancreatic cells.
