Potential competing interests: No potential competing interests to declare.

the paper contributes valuable insights into Dengue treatment, but addressing below points could enhance its clarity and scholarly presentation.

1. Consider organizing the paper with clearer section headings, making it easier for readers to navigate the content.
2. Ensure consistent citation format throughout the paper and double-check the accuracy of references, particularly in-text citations.
3. Acknowledge the call for in vivo studies and provide a brief outline of potential plans for transitioning from in vitro to in vivo research.
