The context of the is fully illustrated in the literature review and the need to conduct the study is clearly stated.

The paper maybe enhanced through the following:

1. Observe alignment in the research questions and the discussion.
2. The research questions maybe restated to show challenges, encountered in the facility management in HEI and Improving FM practices.
3. there is a need to answer RQ 3 on the strategies which can solve dilapidation of completed projects. These are not addressed in the results and discussion.
4. there are segment in the introduction (last paragraph) which could be transfered to the methodology.
5. the methodology maybe enhanced by adding discussion of the research instrument used, its dimensions or indicator, sampling method applied, validity and reliability of the instrument, ethical considerations and statistical treatment of data.
6. There is a need to conduct a triangulation of the result through an interview with the selected participants to confirm the result since the number of participants is very limited.
