

# Review of: "[Review Article] Nanocarriers for Protein and Peptide Drug Delivery"

Victor Baba Oti

**Potential competing interests:** No potential competing interests to declare.

The manuscript explores a compelling and current aspect of drug delivery. However, extensive revisions are required from the abstract to the conclusion. Specific suggestions include condensing the abstract to 200 words, providing a list of scientific sources used for obtaining relevant materials, offering concise descriptions of all tables and figures, and appropriately citing sources throughout.
