Pediatric Hematology-Oncology Terminology

National Cancer Institute

Source

National Cancer Institute. *Pediatric Hematology-Oncology Terminology*. NCI Thesaurus. Code C132009.

Terminology developed by a collaborative effort of the National Cancer Institute's Enterprise Vocabulary Services, the National Institute of Child Health and Human Development, and an international group of clinicians and informaticists to support the reporting of events observed in clinical care and research in children and adolescents seen by experts in blood disorders and cancer.
