The manuscript is about implicit and explicit modelling on students and teachers perspectives and practice in a University of Cyprus. The manuscript needs revising and also I think it is not useful for readers with these shape. There are some points which are introduced as following comments:

- 1- The abstract of the manuscript is not structural.
- 2-Introducing references in abstract is not necessary.
- 3-The abstract is long (408 words).
- 4-The objectives of the study are not introduced in abstract.
- 5-There are few format of referencing in the manuscript.
- 6-No objectives at the end of introduction.
- 7- What is the date of the study.
- 8-The question-ire should introduced in method section.
- 9-The reliability and validity of tool has not introduced.
- 10-Nothing about the analysis method.
- 11-Result and discussion should not be a unique topic (separate these to two topics).
- 12-At the binging of the result there are some sentences regarding to method section.
- 13- Apply tables to show the results.
- 14-There are not enough comparison with other researches in discussion.
- 15-Introduce Fig1 in the text and tell something about the fig.
