

Review of: "A Narrative Review on the Management of Severe COVID-19 Infection Using Stem Cell-based therapies with a Focus on the Registered Clinical Trials"

Afshan Shirkavand¹

¹ Shaheed Beheshti University

Potential competing interests: No potential competing interests to declare.

It seems to be a good-quality narrative review.

English edition is recommended.

Images with higher quality are vital for inclusion.

Some groups with previous references are suggested to review for the introduction as previous researches in many different fields:
