The manuscript titles " In-*Vitro* Antibacterial Activity of some *Ganoderma* Species: A Review

"

The manuscript needs major revisions. The authors must address a number of following points.

1. Change the title of the manuscript to suit its content.
2. Reword the introduction to fit the title.
3. Give a suitable title for Table No. 1 and refer to it in the text.
4. Use abbreviations for terms that are repeated more than once, for example the name of bacteria.
5. Headings in the body of the manuscript must be changed to suit the content.
6. I suggest adding some illustrative pictures.
7. It is suggested to add an analysis of the active compounds in Ganoderma.
8. The manuscript should be re-checked for grammar and spelling mistakes.
