Potential competing interests: No potential competing interests to declare.

The review entitled "Unravelling the Phytochemical and Pharmacognosy Contour of Traditional Medicinal Plant: Pterocarpus Marsupium Roxb" is comprehensive and informative but cannot be accepted for publication in the present form.

Some suggestions for improving the review are given below.

1. Grammatical and typographical errors in the manuscript need to be checked.
2. There is a need to add new studies related to the medicinal properties of Pterocarpus Marsupium.
3. Add a photograph of the plant
4. Several words are joined and should be corrected.
5. Should add future perspectives after conclusions.
