Potential competing interests: No potential competing interests to declare.

The authors' attempt on this title is appreciated.

Yet, before publication, it requires revisiting and reorganization of the paper. Particularly on:

1. Rephrasing the title for clarity,
2. Incorporating the data utilized for discussions,
3. Incorporating subheadings into Results and Discussions,
4. Discussing the results based on literature results (similar studies in other regions and countries),
5. Generating implications (for the study area, India, and other developing countries) from the results and discussions,
6. Citation of all listed references
