# OPCs/Green Tea/Spirullina/Curcumin/Antrodia Camphorate/Fermented Soymilk Extract Capsule

National Cancer Institute

## Source

National Cancer Institute. *OPCs/Green Tea/Spirullina/Curcumin/Antrodia Camphorate/Fermented Soymilk Extract Capsule*. NCI Thesaurus. Code C90545.

A capsule containing a fermented soymilk extract and oligomeric proanthocyanidins (OPCs), green tea, spirullina, curcumin and antrodia camphorate powder, with potential antioxidant, immunomodulating, anti-infective and anti-cancer activities. OPCs/green tea/spirullina/curcumin/antrodia camphorate/fermented soymilk extract capsule may boost the immune system and may alleviate fatigue and poor appetite in cancer chemotherapy patients.
