European LeukemiaNet

National Cancer Institute

Source

National Cancer Institute. *European LeukemiaNet*. NCI Thesaurus. Code C129456.

A publicly funded research network of excellence with a goal of curing leukemia. The European LeukemiaNet aims to strengthen and develop scientific and technological excellence in research and therapy of leukemia (CML, AML, ALL, CLL, MDS, CMPD) by integration of the leading national leukemia networks and their interdisciplinary partner groups in Europe.
