Potential competing interests: No potential competing interests to declare.

The following should be noted and corrected accordingly:

1. How practicable is your proposed model in real-time?
2. Is it cost-efficient?
3. Grammar requires minor re-editing
4. What are the main contributions of the study?
5. The Introduction should contain the organisation of the study
6. Section 2 should be a Literature review or survey
7. Each section should be numbered for better organization
