# Achromobacter piechaudii

National Cancer Institute

## Source

National Cancer Institute. *Achromobacter piechaudii*. NCI Thesaurus. Code C86081.

A species of aerobic, Gram negative, rod shaped bacteria assigned to the phylum Proteobacteria. This bacteria is motile by flagella, oxidase and catalase positive, urease negative, hydrolyzes esculin and is unable to ferment glucose. *A. piechaudii* is normally found in soil but has been isolated from human clinical material.
