

Review of: "In-Vitro Antibacterial Activity of some Ganoderma Species: A Review"

Rutuja Patankar

Potential competing interests: No potential competing interests to declare.

No need to add word 'some' in title.

In title *Ganoderma* to be written in italics

There has to be an short introduction section which will start with *Ganoderma* itself. Then continue with all the species of it.

A section regarding application or medical usage can be introduced in which foot ulcer can be mentioned. As it is mentioned in start itself which makes an confusion regarding article.

Give heading or title to Table 1

Table 1 is not mentioned anywhere in paragraphs in the form of reference.

At few places gaps between words and after fullstop is missing especially check page 3, 4, 5 and 9 (Table 1).

Whole text should be in 'Justify' alignment.
