Reviewer Report

1. Kindly correct typographical errors in the 5th para in the introduction, and please correct the bracket in the last line.
2. Please use italics in the 6th paragraph, 2nd line; also in the 9th paragraph, 1st line (botanical names are always written in italics), 4th line (use italics for *et. al.,...*) and use the correct bracket form *()*, instead of *[]*.
3. In the 10th para, 6th line, of the introduction, pls use italics for *et al.* and use italics for *in vivo* in the 10th line.
4. Please elaborate on the last line in the methodology section about the sample size as derived from the statistical information.
5. Correction needed under Laboratory Methods; 2nd paragraph. Correct H₂O₂ to H₂O₂
6. Correct italics for *et al* and use the correct bracket in the 4th paragraph in the last line. Also correct the same in the 6th paragraph.
7. Corrections regarding the use of italics, spacing between words, and brackets are also required in the discussion part in the 3rd and 4th paragraphs.
8. The manuscript could be attractively presented with the use of suitable graphs and charts for all the assays performed that also provide the statistical relationship between them.
9. Kindly extend the conclusion, describing the future perspectives of the related study.
10. Please recheck the authors' instructions for the reference style of the manuscript.
11. Please specify if the MO supplement has any effect on a particular marker and also explain the novelty of the study regarding the same.
