

# Review of: "The cost of non-coordination in urban on-demand mobility"

Jorge Luis Zambrano-Martinez<sup>1</sup>

<sup>1</sup> Universidad del Azuay

**Potential competing interests:** The author(s) declared that no potential competing interests exist.

This article is well written with scientific bases that the authors have proven. This study would be great to observe in other scenarios of other cities where their structure is different from the big cities and compare their behaviors.
