

Review of: "Maintaining cyberhygiene in the Internet of Things (IoT): An expert consensus study of requisite user behaviours"

Dr. Akram Alhammadi

Potential competing interests: No potential competing interests to declare.

The article is well presented, with a few areas to review:

The abstract should be more brief . includes the A thesis statement.

Authors need to enhance citations from year 2020 to 2023 and discuss related works.

Authors need to compare their results with other previous studies
