The manuscript entitled: "Molecular docking assisted biological functions and phytochemical screening of *Amaranthus lividus* L. extract"

The study had been well organized and conducted, while the results are presented clearly and in understandable way. the paper is quite complete. I suggest the acceptance of this manuscript after minor revisions

- Plant names should be checked again in terms of italic in Figures.
- Figure 1 again check , extractable substance (g) and other results (mg/g or different equivalent results) can not be in the same table.
