

Review of: "14-channel neurofeedback with Auto Train Brain improves the left lateralization of the brain in dyslexia: A pilot study"

Saba Hassanvandi

Potential competing interests: No potential competing interests to declare.

1. Your background should be based on prior evidence.

2. Although you include all the components needed for sample size calculation it is not possible to understand where does the data come from and you do not justify your choices (why these values are meaningful?)
