Potential competing interests: No potential competing interests to declare.

This well conceived paper on sustainable entrepreneurial ecosystems in developing economies makes a good contribution to the literature. However, I wonder if you. believe there is a difference between this and social entrepreneurial ecosystems (also referred to as SEE in the literature) as its very rich literature seems to have been ignored, Similarly, the difference between an inclusive business and social entrepreneurship is not addressed. A brief clarification as part of the literature review could help overcome any confusion.
