

# Review of: "[Review Article] Nanocarriers for Protein and Peptide Drug Delivery"

Seyyed Mohammad Hassan Hashemi

Potential competing interests: No potential competing interests to declare.

this work is well written but I have some comment on your work.

- 1.what is novelty of your current work?
2. you should write about niosome in your work.
3. you should write about nanosuspension in your manuscript.
- 4.please write about regulatory law in production of nanoparticle in pharmaceutical industry
5. please cite this work on your manuscript:
