

Review of: "Pros and Cons of Key Escrow Agreements in Cloud"

Sabena S

Potential competing interests: No potential competing interests to declare.

The presentation of paper is good. It explains how the pros and cons of Escrow agreement clearly. This paper provides only theoretical solution only. Here they did not compare with any existing techniques. Need to do more literature survey. Need to evaluate algorithm based on processing time, execution time scalability, key size. Need to do performance evaluation.
