Puli

National Cancer Institute

Source

National Cancer Institute. *Puli*. NCI Thesaurus. Code C53754.

The Puli is an ancient breed of Hungarian sheep dog. It is medium-sized, sturdy with a unique, corded coat. A full adult coat can reach to the ground. The coat colors can be black, any shade of gray, apricot (with or without a black mask) and the rarer white. Their body shape is square and, though fine-boned, fairly muscular. Height: 14 1/2 - 17 1/2 inches (36-46 cm.) Weight: 20-35 pounds (9-16 kg.)
