# Succinate Dehydrogenase [Ubiquinone] Flavoprotein Subunit, Mitochondrial

National Cancer Institute

## Source

National Cancer Institute. *Succinate Dehydrogenase [Ubiquinone] Flavoprotein Subunit, Mitochondrial*. NCI Thesaurus. Code C103875.

Succinate dehydrogenase [ubiquinone] flavoprotein subunit, mitochondrial (664 aa, ~73 kDa) is encoded by the human SDHA gene. This protein is involved in the mitochondrial electron transport chain.
