Potential competing interests: No potential competing interests to declare.

While your article covers various aspects of AI's impact on reading, it could benefit from a more focused approach on a specific aspect or theme. For example, you could focus on how AI is transforming reading habits in the digital age or delve deeper into the educational implications of AI-powered reading platforms. Given the rapid developments in AI and education, consider engaging with current debates or controversies surrounding AI in reading. This could add a layer of relevance and timeliness to your article. In your conclusion, summarize the key points discussed in the article and offer insights into future directions or areas for further research. This could include exploring ethical considerations, policy implications, or emerging AI technologies in reading.
