Potential competing interests: No potential competing interests to declare.

Good point to be tackled, great job

Abstract: IPC: Please mention the abbreviation for the first time. Regarding the results section, please check the numbers and percentages, and also check the structure of the sentence "The majority of students of both....."

Introduction: Barriers should be mentioned.

There is a contradiction regarding the number of shared courses between different sectors.

Improving, not inproving.

Methods: The questionnaire should be attached as supplementary material, or its link should be clearly written in the references.

Results: Tables and percentages need to be carefully revised; there is some missing data as well as missing tables. Please check.

Arrangement of tables and comments needs to be revised.

Discussion: "Based on instead of built on" will be better.

Need more elaboration about the mentioned studies, such as type of study; also, need to mention the interpretation of the results.

Statements regarding attitude need more elaboration, and also the paragraph starting with "There is also a need to....."

What is meant by notion?

"Various scenarios should include scenes representing" is repeated; please check.

Conclusions: Conclusions focus on the main points and ad values of the study; however, what is really written is a kind of recommendations.

References: The first one states 2 different dates for access; please check.
