# Hidrocystoma

National Cancer Institute

## Source

National Cancer Institute. *Hidrocystoma*. NCI Thesaurus. Code C3760.

A benign cystic proliferation of the sweat glands with apocrine or eccrine differentiation. It usually presents as a dome-shaped, cystic papular or nodular lesion usually in the face and neck. It is a unilocular or multilocular lesion lined by an inner and an outer layer of epithelium. Complete excision is usually curative.
