

# Review of: "A Mini-Review On MXene Based Textiles For Electromagnetic Interference Shielding Application"

Kumutha N

**Potential competing interests:** The author(s) declared that no potential competing interests exist.

The paper had a lack of patent reviews though it was mentioned. It was noted in the two graphs by the way of specifying only the number of patents. The number of patents wrt published or granted are still need to explore. Analyzing the patent documents is also missing.
