

Review of: "A Methodological Contribution to Efficient Dynamic Assessment of Reliability Using Satisfiability Approach"

Anupam Singh

Potential competing interests: No potential competing interests to declare.

The works in this paper are interesting, it looks original and new idea to propose. *But I would like to know how the authors' developments differ from the existing ones. So, if possible, there should be an discussion paragraph to highlight the three goals and an comparison paragraph stating the work superiority.*
