

Review of: "Enhancing Soil Stabilization in Soft Soils Through The Addition of Sand to Soil-Cement Piles: a Comprehensive Study"

Bhagyashri Sarde

Potential competing interests: No potential competing interests to declare.

1. The full forms of ECO-CSB and ECO-CSSB should be added in the abstract part. Please mention the sources of this binder in the material part.
2. Add keywords.
3. Please add citations throughout the whole document.
4. Add more critical observations from previous literature. Please review recent literature available on this topic.
5. The content of Table 1 is from previous research?
6. More tests should be conducted on soil cement samples and compared with results from previous literature.
7. Please discuss ECO-CSB as well. In the whole document, the discussion about ECO-CSSB is the only one observed.
8. Units should be added in the table.
9. More results and discussion should be done.
10. This research needs revision before final publication.
