Potential competing interests: No potential competing interests to declare.

This article provides a detailed discussion and explanation of the Warburg effect and Glucolipotoxicity, which have academic reference value.

There are still some that can be partially corrected, such as 5. Glucolipotoxicity: Unraveling the Link between Metabolic Disturbances and Immune Dysfunction. The "Immune Dysfunction" part can be partially removed because the immune aspect is too extensive. It is also recommended to draw a brief metabolic pathway diagram for reference.
