TOAST Classification

National Cancer Institute

Source

National Cancer Institute. *TOAST Classification*. NCI Thesaurus. Code C49121.

A classification of subtypes of ischemic stroke based on clinical features and the results of ancillary diagnostic studies. The TOAST classification denotes five subtypes of ischemic stroke: 1) large-artery atherosclerosis, 2) cardioembolism, 3) small-vessel occlusion, 4) stroke of other determined etiology, and 5) stroke of undetermined etiology.
