# Review of: "Effect of High-Frequency Repetitive Transcranial Magnetic Stimulation on Upper-Limb Function After Stroke: A Systematic Review and Meta-Analysis"

Mehrnaz Gholami<sup>1</sup>

1. Independent researcher

Thank you for letting me review the manuscript entitled “Effect of High-Frequency Repetitive Transcranial Magnetic Stimulation on Upper-Limb Function After Stroke: A Systematic Review and Meta-Analysis”. Although the topic is not novel, it is an interesting article that has been written clearly and tidily with significant findings, so I accept it and recommend its publication in this journal.
