Excellent paper, but could be improved if you introduce some paragraphs that have the purpose to clarify how the paper is built and give some insight and overview for the methodological background.

The paper could benefit from an introductory paragraph that targets the purpose of the paper and the methodological process behind the used method, and also from a paragraph that highlights the data collection process and what are the direct and indirect limits of the model.

Furthermore, the authors could insert a paragraph in the Discussion section that shares the issues had finalising the research and also future paths that could result from the actual research.

Great job!
