Review of: "Analysing the Automation of Artificial Knowledge in Virology for Safety and Effectiveness in Healthcare: Equilibrium of Advancement and Trials for Secure and Productive Health Necessities"

Celestine Iwendi[1]

1 Institute of Electrical and Electronics Engineers (IEEE)

The following should be noted and corrected accordingly:1. How practicable is your proposed model in real time?2. Is it cost-efficient?3. Grammar requires minor re-editing.4. What are the keywords used in the study?5. Section 2 should be a Literature Review.6. The Introduction should contain the organisation of the study.7. The main contributions of the study should be listed in the Introduction.
