Potential competing interests: The manuscript is well organized and may be accepted after addressing the following 1. Need to refer recent research papers and include in the Literature review section. 2. Need to explain more about the contribution related equations and justify 3. Need to compare the results with appropriate existing methods

The manuscript is well organized and may be accepted after addressing the following

1. Need to refer recent research papers and include in the Literature review section.
2. Need to explain more about the contribution related equations and justify
3. Need to compare the results with appropriate existing methods
