**Potential competing interests:** No potential competing interests to declare.

1. Mention references in systematic order
2. Check grammatical errors
3. Try to use simple and easy language while framing sentences
4. Numbering of equations should be analysed again. Some equations have not been numbered
5. Figure 2, 3, 10, 12 should be numbered properly; two figures can be named as (a), (b), etc.
6. In Figure 6 and 8, font sizes should be checked again
7. Future Scope is missing. It should be included
8. Paper is lengthy. Irrelevant content should be avoided.
