Potential competing interests: No potential competing interests to declare.

In this article, the authors have reported a Paper titled "[A memory dependent analysis on permeation of non-Gaussian laser pulse through human skin](#)" in Qeios. After reading and analyzing the present manuscript, I feel that there is a little new work in the present study.

Reviewer-1: Comments are:

Comment-(1) Clarify and discuss the novelty and compare them with those available in the literature, also including discussions on potential applications.

Comment-(2) Give a broader view of the literature on the topic and the current state-of-the-art.

Comment-(3): Language needs to be polished seriously in terms of grammar and typos.

Comment-(4): Give some illustrations on the physical field quantities and novelty is missing.

Comment-(5): Please check the whole manuscript carefully to eliminate typo errors and mistakes.

Comment-(6) Compare your output results Tables 1-3 with existing literature values.

Status: Revise the manuscript.
