Potential competing interests: No potential competing interests to declare.

1. Abstract is too lengthy. Use the format of the simple objective to variables used to data type and source to data analysis to findings and finally to one recommendation.
2. Under methodology, be specific about the research paradigm you want to use, define it, and link it to the topic.
3. Let the argument flow from the introduction to the statement of problem.
4. Introduce policy implication of the findings
5. More recent references are needed.
