Review of: "Trust and Trade: Ethical Reflections on Patient Trust and the Monetisation of Real-World Data"

Maria Kalogirou¹

1. Institut des sciences juridique et philosophique de la Sorbonne, Université Panthéon-Sorbonne (Paris I), France

I have the impression that I keep reading the same idea, which is not sufficiently developed. Sometimes, what is missing are examples (for instance, p. 5, § "Monetisation": what are the opaque commercial models?) or evidence (for example, p. 9, when the author refers to tokenism within the NHS Data Pilot Board).
