# Perineural cyst

INSERM

## Source

INSERM. (1999). *Orphanet: an online rare disease and orphan drug data base*. *Perineural cyst*. ORPHA:65250

Perineural (or Tarlov) cysts are cerebrospinal fluid-filled nerve root cysts most commonly found at the sacral level of the spine, although they can be found in any section of the spine, which can cause progressively painful radiculopathy.
