Dear Editor,

The submitted manuscript "Synthesis, Characterization and Ameliorative Effect of Iron Oxide Nanoparticles on Saline-Stressed Zea Mays" is correctly prepared. I believe it would be of interest to the readers of your journal and would be suitable for publication after your review.

I suggest listing the lines of each page continuously to facilitate the review.

- 1.- What is the novelty that you bring with your study?
- 2.- At the end of the introduction, rewrite the last two lines emphasizing your objective(s).
3. What was the test of means that you used? Please specify it in the statistical analysis and also place it in tables and figures.
- 4.- Homogenize the bibliography in the proper format; some citations appear with the name of the complete journal and others in abbreviated form.
